INTRODUCTION	5
I. THE APPROACH	
• Introduction to Fingerboard Mechanics	9
• Fingerboard Mechanics	9
• Playing Up and Down a Single String (The Science of the Unitar)	11
• Modes; Chord-Scales: I	16
• Playing on Two Adjacent Strings: Movable Mini-positions	17
• Study of Intervals: Melodic and Harmonic (Poor Man's Guide to Counterpoint)	18
• The Open Position	24
• Position Playing	27
• Combination Playing: "The Realm of the Electric Ice-skating Rink"	30
• The Approach: Take 2, Take 3	32
• What Next?	37
• Next What Next?	38
II. MATERIALS	
• Triads	39
• More to do with Triads	43
• 7th Chords	44
• Intervals, Triads, 7th Chords, Others	47
• C Major Scale	47
• C Melodic Minor Scale	51
• C Harmonic Minor Scale	54
• Diatonic Four Part Chords: I, II, III, IV	57
• Modes; Chord Scales: II	62
• Chord type/Modes	66
• Process	67
• Triads Over Bass Notes: I	74
• Triads Over Bass Notes: II	75
• Pentatonic Scales	82
• Note Math/Finger Math	85
• Fragments (Mosaics)	86
• Voicings from the Symmetrical Diminished Scale	89
• A Picture is Worth a Thousand Words— A Taste, a Thousand Pictures	90

III. COMMENTARIES

• The Guitar's Complexity	93
• The Evolution	93
• Contemporary Harmony	94
• About Tuning and Tuners	94
• Harmonics and Overtone Influence	95
• Feeling "Stale"?	95
• Silence is Golden	96
• On Being Self-Critical	98
• Words — Terms	98
• No One Knows What's Next	99
• Improvising Short Pieces (Use of the Tape Recorder)	100
• Time — Rhythm	101
• Tuning into Time Headquarters	102
• Tempo — Movement	104
• Some Thoughts on Technique	105
• Different Playing Situations	107
• Playing Versus Improvising	108
• Selected Short Subjects	109
• In It, What's In It — No Regrets	114
• Conclusion	115
