Did You Know?

Frogs can jump 20 times their body length.
If you could leap like a frog, you could
jump over 100 feet!

mf Mis-ter Mc-Gill lived high on a hill. You can be sure that he

lives there still. Ev-er-y day, the neigh-bors all say,

he'd sing tunes at his pi-a-no this way. "Doo-wah, doo-wah,"

Loch Ness is the largest fresh body of water in Britain and is almost 800 feet deep. It has been estimated that it is large enough to hold the entire world population ten times over—room for lots of monsters!

The legendary Loch Ness Monster has come to be called Nessie. If she does exist, one explanation is that "Nessie" is a dinosaur that was able to survive extinction, or a giant eel. What do you think?
