PLAYGROUND GAMES

Children the world over love 'playtime'. A welcome break from lessons, a time to burn some energy and have fun. A time to play some games!

Playground Games is a collection of etudes for bass trombone portraying these traditional games and reflecting on the childrens' enjoyment. We can picture them jumping, playing **Hopscotch**, **Leapfrog** and **'Skipping'** (the Double Dutch version of this popular game) and running around in the fast and furious **Tag!** More peaceful moments are to be found when you sense the concentration during **Marbles** and **Cat's Cradle** and an exciting contest is on during **Conker Fight**.

These entertaining pieces are in many genres and styles, keys and meters. Some etudes are funky and rhythmic, others dance-like with waltzes and a merry gigue.

The etudes evoke feelings for those on the playground today and for others, bringing back happy memories.
