EXERCISE 8.3. TURNAROUND PHRASES

This exercise is an example of phrases written in a turnaround progression with a specific direction: ascending lines, descending lines, and the use of patterns extended over the IImi V7 progression.

Using track 13, practice the following examples one at a time (each demonstrated on its own track).

**FIG. 8.4.** Ascending Lines**FIG. 8.5.** Descending Lines**FIG. 8.6.** Ascending and Descending Combination Lines**FIG. 8.7.** Ascending Line with Leap in Opposite Direction**FIG. 8.8.** Descending Line with Leap in Opposite Direction
