Other restrictive rhythm practice possibilities include:

- Syncopation (no downbeat emphasis)
- Quarter notes (no syncopation)
- Hemiola (repeated dotted-quarter notes)

We used the above restrictions on pages 25 and 26. You can read along with those restrictive rhythm exercises while using the R&B backing tracks.

### Step 4: Interpretation "Batting Practice"

Set your metronome to 90 bpm – or 180 if you prefer to divide the beat. It's time for our line-by-line repetitive goal-word practice. Using the options below or your own, repeat each line a number of times. Explore the various ways you can bring out the goal words while incorporating the rhythmic concepts we just practiced.

DANCE with me. There's MAGIC in the night.  
DREAM with me BENEATH the starry light.  
 I sent my WISH to the SKY.  
 My heart is READY to FLY.

Oh, won't you SWAY with me, a TANGO just for two?  
 Could it BE I'll FALL in love with you?  
 And we would be SUCH a SIGHT.  
 Just DANCE with me TONIGHT.

To get you started, here are two different interpretations of the first 16 bars, using the goal-word emphasis above.

#### "Dance with Me" – R&B, line-by-line practice with drums

TRACK 76

**Interpretation 1 (Bars 1-4):**

Chords: Dm7, G7, Dm7, G7

Vocal line: DANCE with me. — There's MAG-IC in the night. —

Piano line: DANCE — with me, — There's MAG - IC — in the night. —

**Interpretation 2 (Bars 5-8):**

Chords: Cmaj7, F13#11, Em7, A7b9

Vocal line: DREAM with me — BE - NEATH the star - ry light. —

Piano line: Dream with ME — be - neath the STAR - RY light. —

Using the backing track, speak – then sing – through the song in 5/4 time. Feel the 3+2 subdivision as you sing. Take note of any pitfalls in the lyric where you might need to work out the phrasing.

 **"Dance with Me" – 5/4 time, backing track (soprano key)**  
TRACK 90

 **"Dance with Me" – 5/4 time, backing track (tenor/baritone key)**  
TRACK 91

### Step 3: Rhythmic Restrictions

Using the backing track in 5/4, speak – then sing – through the following rhythmic restriction exercises. Remember that we are not necessarily concentrating on goal words or interpretation during these exercises. We are simply exploring our rhythmic options.

First, let's focus on sustained downbeats. We are aiming to land on the downbeat, sustain for the majority of the measure, and sing quick pickups into the next bar. Here is an example of the first 16 measures of the song with this rhythmic restriction.

 **"Dance with Me" – 5/4 time, sustained downbeats (alto key)**

Great singing can inspire us, surprise us, make us laugh, or make us cry. It can draw the listener in, creating a shared experience of stories and emotions, communicating the singer's unique point of view. ***Singing with Expression*** presents a step-by-step guide to help vocalists of any style or genre find their voice and connect with their audience.

***Singing with Expression*** has five sections: Timing, Tone, Melodic Alteration, Style, and Other Factors, each with several chapters detailing various concepts and exercises. You'll find over 145 downloadable listening tracks with the author's demonstrations, as well as backing tracks in three different keys.

Spontaneity exercises are featured in several chapters, aimed at helping singers sharpen their real-time-reaction reflexes in a performance situation. Included in the back of the book is a listening list of songs that specifically demonstrate a groove or approach discussed in the book.

Each copy of ***Singing with Expression*** comes with a unique code inside, allowing the purchaser to download or stream the accompanying audio tracks online. The tracks utilize **PLAYBACK+**, a multi-functional audio player making it possible to slow down audio without changing pitch, set loop points, change keys, and pan left or right – available exclusively from Hal Leonard.
